

MOON

THE WINE CELLARS, A HISTORY,

Located in the Swiss Alps and more precisely in the small village of St-Pierre-de-Clages, the wine cellar «La Pleine Lune» was founded in 1888. This wine identity appears as the oldest family wine cellar of the Valais.

Why the name the «full moon»?
It is Roby, the father of Christian, which in 1969 discovered in one of his vineyard a moon-

shaped stone. This stone gave him therefore the idea of calling her wine cellar «La Pleine Lune». The whole domain, which counts 6 hectares, is presently managed by Christian Crittin. He represents with pride the 5th generation.

Thanks to his job in his vineyard, a strict selection in his grapevines and a careful wine production, Christian contributes to the development wines of exception and personalize.
